

XP pressure-preservative treated industrial plywood and lumber products from GW Industries

XP products are engineered specifically for aluminum boat, trailer, bus and truck body manufacturers that require pressure treated wood components that provide superior protection against fungal decay and termites.

XP products from GW Industries offer many advantages to industrial applications.

- **Cost Savings...** XP products are less expensive than ACQ, MCQ, and other environmental alternatives.
- **Performance...** XP products exhibit corrosion rates that are significantly less than ACQ treated wood products.
- **Guaranteed Protection...** XP products are backed by a lifetime warranty against rot and manufacturing defects.
- **Health...** XP products do not contain arsenic.
- **Environmental...** XP products contain lower VOC's compared to MCQ, ACQ, and Copper Azole.
- **FSC Certified...** Ask us about availability of FSC certified XP products.

XP Products meet all applicable major building codes for:

- Above Ground
- Ground Contact
- Fresh water immersion
- Salt water splash zone
- Severe critical structural applications in ground contact

GW Industries offers XP plywood and lumber in a variety of sizes, and grades to meet specific industrial end-use applications. Call us to discuss your performance requirements.
